Rachel Shaw is a graphic designer based in Bedfordshire with more than 20 years experience, acquiring a wealth of knowledge and design expertise. Working for many well known brands and companies all over europe and the UK. Offering a friendly personalised professional service specialising in packaging, design for print, illustration, logos and corporate identities.

What is the Statement of Community Involvement?

We are embarking on an exciting new approach to help you as residents, local groups, businesses, the voluntary sector, and other stakeholders become more closely involved and at an earlier stage in planning matters.

Our aim is to develop together with you a Statement of Community Involvement which will set out our vision and standards for involving and consulting the community on planning matters.

We need you to tell us what we should do to get you involved in the most efficient way in formulating planning policies and considering planning applications for development proposals in Haringey.

Once the Statement of Community Involvement is prepared it will set out:

- which planning documents we are seeking community involvement on
- when community involvement will be sought
- how community involvement will be organised
- who will be consulted

1.

This Statement is one of the documents that we are required to produce under the government's recent changes to the planning system. Once in place, it will guide all community involvement on planning matters.

This booklet gives a summary of what the Statement of Community Involvement (SCI) is, the benefits of community involvement in planning, and how the SCI fits into the new town planning system.

Why is Planning important?

To help us make sure that the decisions the council takes meet the needs of the local community, we are very keen for you to become involved and help us plan the future of the borough.

Planning is important because:

- it affects everyone – whether it involves an extension to the house next door or a major new development affecting hundreds or

Brochure for Haringey's SCI (Statement of Community Involvement), designed to explain the local planning processes and invite community participation

- even thousands of residents
- it delivers homes, jobs, and better opportunities for all
- it has to enhance the historic environment, and conserve the countryside and open spaces
- it has to respect the needs of people's

HARINGEY COUNCIL

ENVIRONMENTAL SERVICES

that there are many different views, needs and interests. Our challenge is to make sure that all these different needs and interests are considered in a balanced way within a sound planning framework. Because planning affects everyone, it is right that local people and other stakeholders should take an active part in this process. That is why we want you to get involved – that we plan the borough together. Community involvement has never been more

Pearl Jordan - homeopath

energetic medicine

balance

What exactly is Homeopathy
Let's start by saying what it's not: a new fad. Homeopathic medicine is extracted from plants, trees, animals, insects and minerals. For two hundred years, Homeopaths have used this natural process. The best thing about it is, it's safe, gentle, non-toxic, non-addictive, free from side effects and it doesn't interfere with other medical treatments.

harmony

A Homeopath looks at your specific symptoms and the underlying cause, then builds a picture before selecting the appropriate remedy. The remedy reflects the disease and stimulates the body to heal itself.

trust in the process

tranqu

■ Tiny sugar pills - how can they make a difference?
Amazing, isn't it. Think of a remedy as eating healthy sweets packed with healing energy and power.

design for print

■ Isn't it expensive?
Not really. All you put on you up visits to the question of price.

feeling good

■ It takes too long to...
Homeopathy only works when your body wants it to. I know, but it's Homeopathy can produce miraculous results. But

■ I don't understand all this alternative stuff.
Neither does my cat Maisie. Works for her!

ny
t

honouring the patient

■ In homeopathy I tap into the individual, looking beyond, at what else is going on - just like teaching dance. As a dance specialist, I create a trusting environment in which to grow and heal - as does a Homeopath. Both disciplines embrace creativity and body awareness. I've come full circle.

garden & planting design

who am I?
I'm a qualified garden designer with a passion for plants and an appreciation of hard landscaping. I graduated from Capel Manor College in North London, [see my profile for more details](#) where I studied *Contemporary Garden Design* and *Hard Landscaping*. For me, garden design is a creative process, where I can always do more.

From a design point of view, I'm happy to offer a wide range of services, from a simple border to a complete garden. I particularly love the horticultural challenges presented by small gardens.

where am I?
North East London. But I'm able and willing to travel, particularly Herts, Essex and North Kent.

how can I help?
I can offer any or all of the following:
garden design • planting design • plant

Welcome to our school

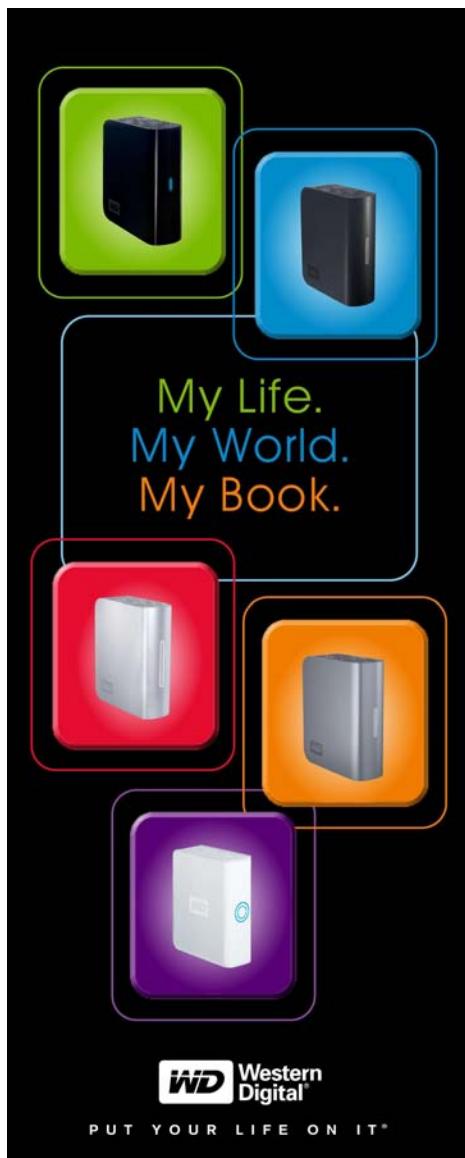

My name is Mrs Burme and on behalf of myself and all the staff of Potton Lower School, I would like to extend a warm welcome to you and your child. We all look forward to building a happy and successful partnership with you during your time at the school. You will find, within our website, a lot of information which I hope will be useful to you, including details of the eight classrooms, the teachers who work in them and examples of work our children have produced. We have also provided details of the many extra curricula activities available, along with the Breakfast and After School clubs. Our philosophy at Potton Lower School is that we are a safe and happy school, where all children make a flying start to achieve success and reach their full potential. We value each child as an individual and do our utmost to provide each one with high quality education, as well as catering for their emotional and pastoral needs. If you have any worries or concerns, please do not hesitate to contact me, I shall be more than happy to meet with you as we understand that shared responsibility for your child's education is at the heart of a successful school.

At Potton Lower School we operate a strong child protection policy.

Small stand
exhibition design for
dignity wigs

Dignity wigs is run by long term friends Beverley Keay and Karen McGhee.

Karen was diagnosed with breast cancer in 2003 and underwent chemotherapy and radiotherapy.

Consequently, she needed to go wig shopping and was horrified at the level of service she received. She visited a number of salons on the advice of her breast cancer nurse, but discovered that the service was poor. The service was in privacy (indeed many salons are on busy high streets with people standing of what she wasn't looking (he
